

CSRA WELCOMES SUNOCO RACE FUELS as the "Official Race Fuel" of the Canadian National Snowcross Championships.

Sunoco is the "Official Spec Race Fuel" of both the CSRA and the ISOC Racing Circuits. To pass tech inspection at CSRA and ISOC events racers must use the following fuels to compete in the classes listed below.

CSRA RACE CLASSES

REQUIRED FUEL TO RACE AT CSRA EVENTS

- | | |
|--------------------|-------------------------------|
| - Pro/Am Women | SUNOCO SURGE |
| - Sport 600 | SUNOCO SURGE |
| - Pro/Am Vet | SUNOCO SURGE |
| - Pro-Lite | SUNOCO SURGE |
| - Pro | SUNOCO SURGE |
| - 120cc Champ | SUNOCO OPTIMA OR SUNOCO SURGE |
| - Transition 1 | SUNOCO OPTIMA OR SUNOCO SURGE |
| - Transition 2 | SUNOCO OPTIMA OR SUNOCO SURGE |
| - Transition Girls | SUNOCO OPTIMA OR SUNOCO SURGE |
| - Junior/Novice 1 | SUNOCO OPTIMA OR SUNOCO SURGE |
| - Junior/Novice 2 | SUNOCO OPTIMA OR SUNOCO SURGE |
| - Junior 1 | SUNOCO OPTIMA OR SUNOCO SURGE |
| - Junior 2 | SUNOCO OPTIMA OR SUNOCO SURGE |
| - Junior Girls | SUNOCO OPTIMA OR SUNOCO SURGE |
| - Trail Sport 600 | SUNOCO OPTIMA OR SUNOCO SURGE |

SUNOCO RACER CONTINGENCY: \$10,000 IN SUNOCO FUEL CONTINGENCY AT CSRA EVENTS.
To be eligible racers must be CSRA annual members and use Sunoco Race Fuels at all CSRA races. Sunoco Race Fuels decals are mandatory on race sleds to be eligible for Sunoco contingency. Racers must provide copy of a Bill Of Sale showing where and when your Sunoco was purchased. Sunoco Race Fuel will be available on site at CSRA events. Cost is \$110 per can taxes included.

CSRA will provide the following Sunoco Race Fuel Contingency credits for **SATURDAYS race finals.**

ALL CSRA RACE CLASSES:

1st. \$30 2nd. \$20 3rd. \$10

***Note: Fuels can not be blended or mixed together. Additives are not permitted.**

SUNOCO RACE FUEL STORES & POWERSPORTS DEALERS:

Sunoco Race Fuels will be available in (5) Gallon cans at all CSRA and ISOC events, as well as, at selected Powersports stores including the following locations.

*When purchasing fuel show your CSRA Membership Card as some retailers provide racer discounts.

*** Keep your sales receipts as they will be required to qualify for the Sunoco contingency program.**

Toronto GTA Area:

OTSFF: Sunoco Distributor to CSRA Racers (Steve Simms) 1-519-717-4800

Superfuels (Randy) 1-473-775-3835 or 416-414-9832

Barrie:

St-Onge Recreation 705-733-2280

Innisfil: Royal Distributing 705-431-9364

Guelph: Royal Distributing 519-822-7081

Whitby: Royal Distributing 905-619-8000

Muskoka: The Compound 705-644-3217

Sudbury: Royal Distributing 705-566-8111

Timmins: J&B Cycle (Dennis) 705-267-1417

North Bay: NBSSR (Claude) 705-499-8114

West Ontario:

Country Corners Rent All 800-265-2901

Quebec:

Powersports Performance (Francois) 844-777-0462 or 514-260-4587

ISOC USA Events: Order your fuel (2) weeks in advance to ensure availability at ISOC events.

Woodie's Racing (Paul) 307-887-1964

CSRA Racers that require large quantities of race fuel in (5) Gallon cans or (55 Gal. Barrels) should pre order their fuel for direct delivery or warehouse pickup.

OTSFF: (Steve Simms) Phone: (519)-717-4800 or E-mail: steve@otsff.com

Superfuels: (Randy) superfuels1@aol.com (473)-775-3835 or (416) 414-9832

RACE FUEL FACTS & INFORMATION

Today's new Cars, Trucks and SUVs are designed to use pump fuel with ethanol, however most small engines in Snowmobiles, ATVs / UTVs, Dirt Bikes and Vintage cars and trucks are not.

High quality Race Fuel without ethanol is more expensive than commercial pump fuel, however you will receive the following benefits.

Advantages of using Sunoco Race Fuels: Sunoco Optima or Sunoco Surge:

- * Sunoco Race Fuels are NON-ETHANOL, Racing Products.
- * Approved for ISOC and CSRA racing by the Polaris, Arctic Cat, Ski-doo race departments.
- * You may run MORE laps using LESS fuel.
- * \$10,000 Sunoco Race Fuel Contingency Program in effect for 2018-2020 race seasons.
- * Elevated octane for INCREASED detonation protection, may save expensive engine repair.
- * No additives needed, no attraction to water.
- * Multi season SHELF LIFE/storage ability.
- * HIGH level of Quality and Consistency for efficient tuning.
- * Provided in SEALED (5) us gallon containers or (55) us gallon drums.
- * Product AVAILABLE for Pre-Order, eliminate stops at stations to fill up.
- * Avoid UNWANTED lower octane pump fuel in commercial pump filling station lines.
- * POUR and GO! No need to mix gasoline and create a mess, only add oil for 2 cycle engines.
- * NO fuel system maintenance or draining of fuel at the end of the race season.
- * Great performance fuel for all your seasonal power equipment that requires seasonal storage, ATVs, Snowmobiles, Side x Sides, Boats, Generators.
- * Available for sale at select Powersports dealers and at CSRA and ISOC race events.
- * A specified race fuel rule helps to ensure a fair racing platform for all racers and helps to eliminate the illegal use of hazardous fuel additives.

Disadvantages of Commercial pump fuels with Ethanol when used in most Small Engines:

- * Ethanol can break down rubber seals within your engine.
- * Ethanol is heavier than race fuel, and therefore less engine response than race fuel.
- * Ethanol is a water based fuel, it may allow moisture into fuel lines freezing and corrosion.
- * Ethanol runs hotter than race fuel and may cause engine damage in high revving engines.
- * Ethanol is a solvent and it may deteriorate paint and some metals.
- * Ethanol mixed fuels may use up to 25% more fuel than race fuel.
