CSRA WELCOMES SUNOCO RACE FUELS as the "Official Race Fuel" of the 2018 Canadian National Snowcross Championships.

CSRA is pleased to announce its newest partnership with Sunoco Race Fuels, Sunoco is the world's leading manufacturer of quality race fuels and a long time supporter of the racing community. With this new partnership, Sunoco will now be the "Official Spec Race Fuel" of both the CSRA and the ISOC Snocross Racing Circuits.

"CSRA is excited to have Sunoco Race Fuels on board for the 2018 race season" said Ken Avann, CSRA President. Sunoco's high quality race fuels are used by the world's elite racers and the world's largest race circuits including NASCAR, INDYCAR, NHRA. Our Snowmobile and Snow Bike competitors and mechanics understand the importance of using a consistent premium Fuel while racing in Canada's extreme winter conditions".

Each batch of Sunoco Race Fuel is analyzed and tested under strict laboratory conditions to ensure that Racers and Off Road Powersports Riders receive a reliable, high quality gasoline every time. Sunoco Surge and Optima 95 are perfect fuels for our Snowcross racers and other High Performance Trail Riders. The fact that all ISOC and CSRA racers will be using a specified fuel will permit mechanics to fine tune engines with a consistent fuel for any race in North America, the spec fuel also creates a fair racing platform for all our competitors.

Sunoco Senior Sales Manager, Terry Thompson, revealed that, "Sunoco is very proud to announce a partnership agreement with CSRA. Sunoco has a long history of proven quality and performance, and having these racers use our fuels to reach the checkered flag is an important part of our motorsports program. We feel that CSRA and ISOC both reflect the core belief at Sunoco that events should provide fierce competition on the track and a great experience for the spectators."

About Sunoco LP:

Sunoco Race Fuels is a division of Sunoco L.P., a master limited partnership that operates 1,355 convenience stores and distributes fuel to 7,825 fuel stations across 30 states. Sunoco's 18 racing fuels are sold throughout the world and are the Official Fuels of NASCAR, NHRA, IndyCar, MotoAmerica, and Amsoil Championship Snocross. Sunoco partners with over 60 racing organizations and sells fuel at over 500 tracks. SUN's general partner is a wholly owned subsidiary of Energy Transfer Equity, L.P. (NYSE: ETE). About CSRA:

The Canadian Snowcross Racing Series is the premium snowmobile racing circuit in Canada and the oldest snowmobile racing circuit in North America.

CSRA strives to bring sponsors, racers, manufacturers, and racing fans the most organized, visible circuit in the industry. Snowcross is today's most popular form of snowmobile racing. With its high-flying aerial displays and compact track design, competitors race around tracks that feature tight turns, banked corners, and a variety of jumps allowing racers to catch "big air" in full view of spectators.

Spanning (8) events from January thru to April, the CSRA travels to key Powersports markets with its travelling race circuit. CSRA is affiliated with ISR, ISOC, SCMx and ECS.
